Testimonials

“Michael, I wanted to take a minute and thank you Michael for the tremendous job you did with the acoustics in the new Haddock Performance Hall here at the Lionel Hampton School of Music. I continue to get rave reviews about the sound of the room from even those that were skeptical about making any

Michael R. Yantis, PE, Hon AIA

Michael Yantis has been a consultant in architectural acoustics and vibration, mechanical system noise and vibration control and environmental noise for more than 35 years. changes in the first place. Listeners are praising... You attended numerous events before the renovation, met with our entire faculty for the purpose of exploring the stage from their viewpoint, spoke to us in musical terms, and patiently explained details to everyone about what you were doing. These actions far exceeded my expectations when I asked the design team to be cognizant of the faculty needs." - Kevin Woelfil, past Chair, Lionel Hapton School of Music, University of Idaho, Moscow, Idaho

"The finished hall so far exceeds our hopes that everyone in the department is still amazed by its profound transformation. Simply put, it is the finest small recital hall in the city, if not the entire state. The relationship between the audience and performers provides a level of intimacy not normally found in recital halls." - Bryan Johanson, Chair, Department of Music, Portland State University, on the Lincoln Hall Music Recital Hall renovation.
